SMOOTH TANGLE TAPE OPTION FOR SOFT SITUATIONS
SYSTEM CONCEPT

The system is designed to provide rapid protection; 75-1000 metre barriers of barbed tape concertina/razor wire coils can be deployed at incredible speed (300 meters in 20 seconds).

Applications: Base camps, no-go areas, embassies, court rooms, military stop lines, streets, buildings, etc...
Barriers may be either manually or mechanically recovered for re-use. Lifespan of the barriers - the same barriers have been deployed and recovered over 100 times.

Equipment is supplied to uplift and re-compress the barrier into modules, simple to handle and compact to store. A single carrier unit can be quickly refilled to drop many kilometers of barrier in a short space of time. Systems can be tailored to meet customers exact requirements. No police or Military Organization can afford to be without this valuable tool, which substantially increases the effectiveness of forces on the ground.
